The Fibresmart™ Range.

A new generation of synthetic long chain fibres used to create energy smart sleep technology. Fibresmart™ quilts have a beautifully smooth and velvety texture with a soft and luxurious feel.

The Fibresmart™ quilt is even softer, smoother, more durable and more breathable than those made from the highest quality natural materials.

Fibresmart™ is super absorbent and wicks moisture away from your body keeping you feeling clean and fresh the whole night. Fibresmart™ is anti-bacterial, resists mould, mildew, fungi and dust mites making it perfect for those who have hyper-sensitive skin or experience hay fever.

Fibresmart™ Pillow.

Fibresmart™ pillows:

Features technology that utilises synthetic long chain fibres that are quick drying, durable and bacteria resistant, this innovative fabric is also transeasonal breathable in hotter months and warming in colder months. These super lofty pillows beckons a decadent, uninterrupted sleep and is the superior choice for allergy sufferers.
